

# AITOR RODRÍGUEZ

Gijón, Spain | +34 674 045 914 | rsaitor191@gmail.com | Portfolio: <https://aitordev.vercel.app/>

---

Junior Web Developer with training and experience in backend and frontend development. In my portfolio, I showcase various personal projects where I apply my programming knowledge along with other skills such as SOLID principles, version control with Git, and CI/CD. Focused on developing scalable applications, REST APIs, and clean architecture, with an interest in applied cybersecurity.

---

## PROFESSIONAL EXPERIENCE

### JUNIOR FULL-STACK DEVELOPER INTERN

SICO S.L. – Gijón, Spain | September 2025 – November 2025

- Developed and maintained scalable web applications using C#/.NET and Angular, applying SOLID principles and layered architecture, reducing maintenance incidents and improving code stability in production.
- Implemented continuous integration workflows and version control with Git, participating in continuous deployment pipelines that improved development efficiency and reduced delivery errors.
- Contributed to the full lifecycle development of a check-in/check-out control system, integrating data flows and business logic oriented toward REST APIs.

### MAINTENANCE AND LOGISTICS TECHNICIAN

Hopp ehf. – Reykjavík, Iceland | June 2024 – October 2024

- Diagnosed and resolved technical incidents in high-demand environments, applying structured work methodologies and process optimization.
- 

## EDUCATION

### Advance Vocational Diploma in Web Application Development

Tunivers Formación S.L. | September 2023 – June 2025

---

## CERTIFICATIONS

### Backend Development and APIs

FreeCodeCamp | ~165 hours | Completed – 2025

### Foundational C# with Microsoft

FreeCodeCamp | ~35 hours | Completed – 2025

---

## PERSONAL PROJECTS

### Sniphub – AI-Powered Snippet Manager (Final Degree Project)

Platform for creating, editing, deleting, and sharing code snippets, featuring AI integration (GROQ) for generating code explanations. **Technologies:** Angular, Express, Node.js, MySQL, Postman, Jest.

### TraderBot – Algorithmic Trading Platform

Algorithmic trading platform with backtesting, technical indicators, and Binance integration. **Technologies:** Python, FastAPI, Next.js, TypeScript, PostgreSQL, Docker.

---

## LANGUAGES

**Spanish:** Native

**English:** Advanced (C1)
